New York, Feb. 9.—"She's dead!" cried some one. The shock of the words, "she's dead," and the woman to a protesting and in a twinkling she had regained her sight.

"Jim, Jim," she cried to her husband, "I can see." Her loss of vision was caused by paralysis, and the shock sustained on being taken for a corpse restored her sight.

WEPT OVER THE COFFIN

Then Discovered That Wife and Mother Was Alive

Malden, Mass., Feb. 9.—Abraham Levine and his three children were weeping over the coffin brought for Mrs. Levine, the wife and mother, when Abraham, opening the casket for one last look at his wife, discovered that the body was not there. Mrs. Levine had been a patient at the Telesbury hospital and Abraham had received word that she was dead. Investigation today showed that his wife was still alive and that the mistake had been due to the fact that her name and the name of the dead woman were somewhat similar.

WORLD'S MARKETS

WHEAT SUPPLY DECREASED AND PRICE ADVANCES

Chicago, Feb. 9.—Strength came back to wheat today as a result of reports that the Argentine strike continued, notwithstanding official reports to the contrary. Attention also was given to figures showing that the world's available stock suffered a huge decrease for January as compared with a substantial gain during the corresponding month a year ago. Opening prices were 1-8@1-1-4 to 1-2 higher. May started at 103 3-4 to 104, an advance of 1-4@1-2 and rose to 104 1-4 to 1-8.

Corn ascended owing to the timidity of short sellers. May opened a shade to 1-8 up at 58 3-8@1-2 to 63 1-2 to 68. Aggressive buying made oats firm. May started 1-8 to 1-4 higher at 52 1-2 to 52 5-8 and went to 52 3-4.

Provisions scored a gain on account of smaller receipts of hogs. First level to 3 cents advance with May \$10.35 for pork; 93 3-4 to 1-2 for lard and \$8.85 for ribs.

MARKET IS QUIET BUT PRICES FIRM

New York, Feb. 9.—Speculative interest in the stock market was too slight to effect a decided change in the level of prices during the morning. The bear faction which for several days has been making ineffectual attempts to unsettle prices, made no further efforts and the undertone of the market was firm. Reports that some of the smaller steel manufacturers were cutting prices had no effect on the steel shares. The copper group fell back slightly on profit-taking, after yesterday's rise, despite the sharp advance in the price of the metal abroad.

Increasing strength was shown under the leadership of the Hill stocks, the southern group of railroad stocks sharing. Great Northern preferred rose 1 3-4 and Northern Pacific and St. Paul 1. Prices of the principal shares at midday ruled generally a fraction above yesterday's final figures.

Bonds were steady.

REPUBLIC OF CHINA

Abdication of Throne Will Be Accomplished by Feb. 18.

Shanghai, Feb. 9.—Tang Shao Yi, the representative of Premier Yuan Shi Kai, today declared that he was confident that the abdication of the throne would be an accomplished fact before February 18.

There appears to be less confidence now than there hitherto has been that Yuan Kai will be selected for the presidency of the republic. On the other hand the name of General Li Yuen Heng, the present vice president, is mentioned, and it is possible that he may be eventually selected.

The draft of the proposed Magna Charta of the new Chinese republic has been completed by Dr. Wu Ting Fang, the minister of justice in the republican cabinet, and now awaits the approval of the senate at Nanking. The document provides for a presidential term of five years, but the senate probably will make the first term only one year.

It is thought that a compromise may be reached on the question of the future capital of China. President Sun Yat Sen, however, asserts positively that Nanking will be selected, although he admits that an agreement may be made to keep Peking provisionally as the nominal capital.

Desultory outpost fighting continues in many places, but the reports as to the casualties are very much exaggerated on both sides. Tang Shao Yi declared positively today that there would be no more serious fighting.

FORMER MAYOR OF BUFFALO IS DEAD

Buffalo, N. Y., Feb. 9.—James Noble Adam, former Democratic mayor of Buffalo, and founder of the dry goods house of J. N. Adam & Co., died here at 3 o'clock this morning, after a brief illness.

Mr. Adam was seized with a faint, falling spell yesterday afternoon while visiting the office of Mayor Fuhrmann, his successor. He apparently was suffering from an attack of acute indigestion, but was able to walk to his automobile and was taken home. Up to midnight his condition was not regarded as serious, but early this morning another attack, apparently of apoplexy, caused his death.

He was 70 years old. He retired from business life in 1907 and had devoted most of his time ever since to public affairs. His term as mayor expired last year.

Mr. Adam returned recently from Peebles, Scotland, his birthplace, where he was visiting to make an annual visit. He came to America in 1872 after serving his apprenticeship in commercial life in Scotland, and was a resident of New Haven, Conn., until 1881, when he came to Buffalo.

He was a conservative Democrat of national prominence.

DISTRIBUTION OF DRESSED BEEF IS EXPLAINED

Chicago, Feb. 9.—Methods used by Swift & Co. in the distribution and sale of dressed beef, were explained to the jury in the makers' trial today by Lee M. Lester, assistant manager of the fresh meat department. He said the first step after the cattle were slaughtered was to figure the cost of the dressed beef. After this, an average request price is fixed and this is sent with every car of meat shipped to branch houses. When the car reaches its destination the branch house manager makes an estimate of the meat that will actually bring and telegraphs the figures to the Chicago office.

Later the actual sales are reported and an accounting made for the cash received.

RAILROADS WIN IN THE MISSOURI OUSTER

Jefferson City, Mo., Feb. 9.—The Missouri supreme court on bench today sustained a demurrer to the petition of the attorney general of the state of all the sixteen railroads in the state on allegations of combining to fix passenger and freight rates.

The opinion by Judge Brown held the petition was insufficient to the charge of conspiracy.

NAGEL IN THE LEAD

But President Is Still Considering Hook For Justice.

Washington, Feb. 9.—After a conference with President Taft today, Senator Curtis and Representative Anthony of Kansas said that the president would not fill the vacancy of the supreme court bench until next week, although the senate official announcement was made at the White House last night that the appointment would be decided on at today's cabinet meeting.

Senator Curtis said the president had promised to consider once more the claims made by Kansas in favor of Judge Hook.

Secretary Nagel, however, was still regarded as the probable appointee.

TOO MANY PEOPLE GOING TO OREGON

Will H. Day, president of the Central Labor council of Portland, Ore., today said he was sending William Spry, a communist, to Oregon to attract the evils purported to have been caused in the state of Oregon as a result of false employment advertisements in eastern papers, which have taken to the state thousands of men, women and children who are out of employment and in a destitute condition.

The communication states that many of the reasons why have answered the advertisements, thinking that they could get big wages for their labors in Oregon are now depending upon charity for their existence. Having spent their savings to take themselves and families to Oregon, they find themselves out of employment and unable to get work.

The communication contains some statistics relative to the existing conditions in Oregon, and condemns the unscrupulous advertisements of employment agencies in eastern papers, which have been inserting advertisements in eastern papers that wages are high and that there is plenty of work in Oregon.

The communication says that people should not go to Oregon unless they have a knowledge of the existing conditions.

TAFT FORCES ARE ALREADY AT WORK

Washington, Feb. 9.—Active work for the re-nomination and re-election of President Taft, aside from that done at the White House, began here today when Representative William B. McKinley of Illinois, chairman of the Republican congressional committee took up his new duties as manager of the Taft campaign.

Mr. McKinley began work early and planned to see many of the party leaders. He also planned to make a tour of the country, visiting the various campaign headquarters for the Taft boomers have not been secured but within a few days Mr. McKinley expects to open offices.

Although Republican leaders said today that it was too early to talk about the plans of campaign after the Chicago convention, many friends of Mr. McKinley were of the opinion that, if President Taft is re-nominated, Mr. McKinley will be his choice for chairman of the Republican national convention.

Mr. Adam was seized with a faint, falling spell yesterday afternoon while visiting the office of Mayor Fuhrmann, his successor. He apparently was suffering from an attack of acute indigestion, but was able to walk to his automobile and was taken home. Up to midnight his condition was not regarded as serious, but early this morning another attack, apparently of apoplexy, caused his death.

LARGE BRIDGE OVER THE OHIO RIVER

Paducah, Ky., Feb. 9.—There are no impediments now standing in the way of the double track railroad bridge to be built over the Ohio river 12 miles below here, marking a long step in the race of transcontinental truck lines to secure direct connections with Gulf ports in anticipation of the opening of the Panama canal. Plans for the structure were announced here today. Bids will be opened March 15, and the contract for the construction will be let within thirty days thereafter.

The bridge is to be built jointly by the Burlington, which initiated the enterprise, the Illinois Central, the Louisville & Nashville, the Frisco and the Big Four railroads. It will cost \$3,000,000 and another million will be spent in constructing terminal facilities and shops.

NO WORD AS TO THE CONDITION OF MORRIS.

New York, Feb. 9.—Not a word could be obtained today at the apartments in West 58th street, where Charles W. Morris, the pardoned convict banker, is recuperating, preparatory to a trip to Germany.

Rebeks were current that Morris would sail tomorrow, perhaps on the Oceanic, having decided that it was best to start for Europe at once instead of remaining here for a week or ten days as he first proposed.

Leavenworth, Kan., Feb. 9.—President Taft today commuted the sentence of Perry W. Wire, a military prisoner confined in the federal penitentiary here, to take effect at once. Wire was brought here from Governor's Island to serve five years for desertion and had served nearly a year.

RECALLS THE PAST

When Union and Confederate Met on the Battlefield

New York, Feb. 9.—Seventy-five survivors of the union corps which fought at Roanoke Island fifty years ago, this week, met here last night for the last reunion dinner they will ever hold. For forty years these veterans have met annually at the Roanoke association, to celebrate the first important union victory of the Civil war, but now, feeling the weight of the passing years for all of the survivors are well beyond their three score and ten—they have found it necessary to give up the celebration in the future.

The aged veterans manifested much of their old-time vim last night when members of the Confederate camp of New York unexpectedly marched into the banquet room and gave the rebel yell. The men in blue rose to their feet and fired a welcoming volley of union cheers.

The Confederates were warmly greeted by the association.

Their commander led his men from the ball amid the singing of "Dixie" by the Union veterans.

SHOPMEN ORGANIZE

Weakness of Present Unions Suggests New Federation.

Chicago, Feb. 9.—Labor leaders are actively perfecting the formation of a territorial organization of railroad shop employees that will include every railroad operating west of the Mississippi river, according to the Record-Herald today. A meeting to place the finishing touches on the organization will be held in Kansas City March 9.

As soon as the organization is launched demands are to be made for a general advance in wages on every road. It is the aim to unite all the mechanics, tool makers and other shopmen who are employed on the railroads so that concerted action may be taken when wage demands are made. Demands will be made on all railroads in the same territory at the same time, so that all railroads will be involved simultaneously if a strike is called.

Labor leaders say they discovered the weakness of their former plans while the recent disputes with the Harriman lines and Illinois Central railroad were on, and that the time the strike it will be on a broader scale.

The new organization, if consummated on the lines planned, will include more than 100,000 men.

OUTCAST ISLAND IS PURCHASED

Barth, Me., Feb. 9.—Maine's so-called "outcast island," off the mouth of New Meadows river, which has perplexed the authorities for several years, is now the property of the state and the 35 inhabitants will reside elsewhere.

The heirs of John Perry, original owner of the property known as "Malaga Island," brought suit some time ago to obtain possession of the island. The islanders, although they had never paid rent or taxes, maintained that they should not be disturbed, inasmuch as their great-grandfathers and fathers had lived and died there.

The purchase of the island by the state ends the litigation. Ten of the islanders have been brought to the mainland and sent to a home for the feeble-minded, and the others say they will leave voluntarily in the spring.

For many years he was known to stage folk as "The best dressed man on Broadway."

BIG SLIDES AT CULEBRA

Cracks of Unknown Depth Appear in the Canal Cut

Washington, Feb. 9.—While the present dry season on the Isthmus of Panama continues, the canal forces will resume work on the Culebra slide. Excavations will be continued from the top of the bank as by this means it is intended to lessen the weight of the mags that shows signs of having broken away from the main hill. This will have the effect of minimizing the tendency of the earth to move of its own weight into the prism of the canal. The area to be excavated is about four acres.

There are numerous cracks in the earth in the Culebra vicinity, according to the Canal Record, the typical opening being from six inches to a foot wide with a depth that can only be conjectured. It is apparent, according to the Record, that the "toe" of the hill has broken away from the main mass.

It is estimated that the total amount of material removed from the slides on the west bank at Culebra is 4,789,357 cubic yards and that there still remains within the area 2,335,563 cubic yards, most of which may require removing. In all the slides in Culebra cut, there remains to be excavated about 3,696,000 cubic yards, or about one-fourth of the total remaining excavation of the cut.

The ordinary garden seeds such as lettuce, onion, tomatoes, beans, cucumbers and sweet corn are about normal in both supply and price.

New York, Feb. 9.—Mrs. Frederick Crandall, nee McMannus, came to New York today from Blackwell's island and learned for the first time that her husband was an heir of the late Edwin Hawley and a prospective millionaire. Since January 20 last she had been an inmate of the work house, sentenced for "disorderly conduct and mischievous mischief," the outcome of a tenuous house row. The children of the pair have been at Chatham, N. Y., awaiting their mother's release and it is understood she will join them there.

Young Crandall once was one of the late railroad magnate's favorite nephews, but they quarreled in 1896 when Mr. Hawley learned of Crandall's attentions to Miss McMannus, then a telegraph operator in the offices of the Southern Pacific railway, where she was employed. Since Hawley died intestate, Crandall will receive a share of the estate amounting, it is said, to more than \$2,000,000.
